### How to read this deck

Each page shows its headline, supporting copy and calls-to-action as they should appear on the site. Labels such as **Hero headline** or **Button** tell your web developer where the text goes.

### Before going live

Text highlighted like this is a placeholder for your real figures — founding year, MOQs, capacity, emails and so on.

### Tone & compliance

Confident, clear and science-led. Avoid disease claims such as "cures" or "treats" on products, to stay within FSSAI and export-market rules.

## Introduction

At Zoelex Pharma, we believe supplements should be as easy to take as they are effective. From our facility in Pune, India, we develop and manufacture next-generation nutraceutical and Ayurvedic products in formats people actually enjoy. Our GMP, FSSAI and GLP certified operations help brands launch faster, scale reliably and win consumer trust.

## Highlights strip

| | | | |

Share your concept and our team will get back within 24/48 hours with formulation options and a quote.

Talk to Our Experts

# 02 Where Science Meets Everyday Wellness

Zoelex Pharma is a Pune-based manufacturer of novel drug delivery and nutraceutical products. We specialise in formats that make daily supplementation simpler and more enjoyable: vegan gummies, oral thin films, softgels and liposomal formulations.

Founded in year, we started with a simple observation. Many people skip their supplements because pills are hard to swallow or easy to forget. We set out to change that with formats that taste good, work fast and fit into modern lives.

Today we partner with nutraceutical brands, Ayurvedic companies, pharma marketers and distributors in India and abroad. We combine modern manufacturing science with the wisdom of Ayurveda to create products that are effective, safe and consistent batch after batch.

OUR VISION

**To be a globally trusted partner for innovative nutraceutical and Ayurvedic delivery formats.**

OUR MISSION

- Develop supplement formats that improve compliance and consumer experience
- Uphold the highest standards of quality, safety and regulatory compliance
- Help brands of every size launch and scale with speed and confidence
- Invest continuously in research, technology and people

## Our Values

**Quality First**
No shortcuts — every batch, every time.

**Innovation**
We look for better ways to deliver wellness.

**Integrity**
Transparent pricing, honest timelines, clear communication.

**Partnership**
Your brand's success is our success.

**Sustainability**
Plant-based choices and responsible manufacturing.

## Leadership OPTIONAL BLOCK

Photo

Founder / Director name, Title
2–3 lines on experience and vision.

03

# Four Formats. Endless Possibilities.

The right format can make or break a product. We help you choose the one that suits your active ingredients, your audience and your market.

## Vegan Gummies

PLANT-BASED · GREAT TASTE

Plant-based, pectin-set gummies that taste great and deliver accurate doses. Free from gelatin and suitable for vegetarian and vegan consumers.

- Custom shapes, colours, flavours and coatings (sugar-sanded or oil-coated)
- Sugar-free and low-sugar options
- Suitable for vitamins, minerals, herbal extracts, probiotics* and more
- Packed in bottles, jars or pouches

## Oral Thin Films (OTF)

DISSOLVES IN SECONDS

Ultra-thin strips that dissolve on the tongue in seconds. No water, no swallowing, no fuss.

- Fast onset and easy dosing on the go
- Ideal for children, elderly users and people who dislike pills
- Suitable for vitamins (B12, D3), melatonin, caffeine, herbal actives and more
- Individually sealed sachets for freshness and portability

## Softgels

OILS · FAT-SOLUBLE ACTIVES

Smooth, easy-to-swallow capsules ideal for oils and fat-soluble nutrients.

- Excellent for omega-3, vitamin D, vitamin E, CoQ10 and herbal oils
- Protects sensitive actives from oxygen and light
- Gelatin and plant-based shell options
- Range of sizes, shapes and colours

## Liposomal Formulations

ADVANCED ENCAPSULATION

Actives enclosed in phospholipid layers to support better absorption and stability.

- Suitable for vitamin C, glutathione, iron, curcumin, CoQ10 and more
- Available as liquids, sprays or as inputs for other formats
- Masks bitter or metallic tastes

*Ingredient suitability depends on formulation stability studies. Our R&D team will advise on feasibility.

04

# Ready-to-Launch Formulations Across Wellness Categories

Choose from our tested formulations or let us build one from scratch. Each category is available in one or more of our four formats.

| Category | Example products | Formats |
|---|---|---|
| **Vitamins & Minerals** | Multivitamin, Vitamin D3, B12, Biotin, Zinc, Iron | Gummies · OTF · Softgels · Liposomal |
| **Immunity** | Vitamin C, Elderberry, Zinc + C, Giloy | Gummies · Liposomal |
| **Sleep & Stress** | Melatonin, Ashwagandha, Magnesium, L-Theanine | Gummies · OTF |
| **Energy & Focus** | Caffeine, B-Complex, Ginseng | Gummies · OTF |
| **Beauty & Skin** | Biotin, Collagen support, Glutathione, Hair & Nails | Gummies · Liposomal |
| **Heart & Joint** | Omega-3, CoQ10, Turmeric / Curcumin | Softgels · Liposomal |
| **Digestive Health** | Apple Cider Vinegar, Fibre, Probiotics | Gummies |
| **Kids' Nutrition** | Kids Multivitamin, Omega, Vitamin D | Gummies · OTF |
| **Ayurvedic Range** | Ashwagandha, Shilajit, Triphala, Tulsi, Moringa | Gummies · Softgels · OTF |
| **Women's Health** | Iron + Folic Acid, PCOS support, Prenatal | Gummies · Softgels |

## Want something not listed?

# End-to-End Manufacturing, Built Around Your Brand

### 01 Contract Manufacturing

Scale production with confidence. We manufacture your formulation to your specifications, with full batch documentation and quality testing.

### 02 Private Label / White Label

Launch your own brand quickly using our proven formulations. Pick a product, add your branding, and go to market in weeks, not months.

### 03 Formulation & R&D

Our scientists develop custom formulas, optimise taste and texture, and run stability studies — balancing efficacy, cost and consumer appeal.

### 04 Packaging & Design Support

Bottles, jars, pouches, blister packs and sachets. We support label compliance and can connect you with design partners.

### 05 Regulatory & Documentation

COA, MSDS, stability data, product dossiers and FSSAI / export documentation to help your product clear market requirements.

### 06 Export Support

We ship to brand owners and distributors worldwide and help with the paperwork required for international markets.

06

PAGE 06 · INFRASTRUCTURE & QUALITY

# Built for Precision. Certified for Trust.

Our Pune facility is designed for the specialised needs of novel delivery formats. Every stage, from raw material receipt to final dispatch, follows documented procedures and strict quality checks.

## Our Facility

- Dedicated lines for gummies, oral thin films, softgels and liposomal products
- Controlled temperature and humidity zones
- In-house quality control laboratory
- Installed capacity: X units/day per format
- Facility area: X sq. ft.

## Certifications

**GMP**
Good Manufacturing Practices

**FSSAI**
Food Safety & Standards Authority of India

**GLP**
Good Laboratory Practices

Add ISO, HACCP, Halal, Kosher or AYUSH licence, if held

## Our Quality Process

1. Raw material testing & vendor qualification
2. In-process checks at every critical step
3. Finished product testing for potency, purity & microbial limits
4. Stability studies for shelf-life assurance
5. Full batch traceability & COA with every lot

# 07 The Partner Behind Great Wellness Brands

### Format Specialists
Four advanced delivery formats under one roof — grow your range with a single partner.

### Certified Quality
GMP, FSSAI and GLP certified operations with full documentation.

### Vegan & Clean-Label
Plant-based gummies and natural colours and flavours for today's conscious consumer.

### Ayurveda + Modern Science
Traditional herbs delivered in modern, consumer-friendly formats.

### Flexible MOQs
Practical minimum order quantities for startups and established brands alike.

### Speed to Market
Ready formulations and an experienced team cut your launch time.

### Global Outlook
Export-ready documentation and experience serving international clients.

## How We Work

1
### Enquiry
Share your product idea, target market and volumes.

2
### Consultation
We recommend format, formula and packaging.

3
### Sampling
We develop samples for your approval.

4
### Quote & Agreement
Clear pricing and timelines.

5
### Production
Manufacturing with quality checks at every stage.

6
### Delivery
Tested, documented and dispatched anywhere in the world.

# 09 Frequently Asked Questions

**Q What is your minimum order quantity (MOQ)?**

MOQs depend on the format and formulation. Typically they start at X units for gummies and X units for oral thin films. Contact us for details.

**Q Do you offer private label manufacturing?**

Yes. You can choose from our ready formulations and launch under your own brand name.

**Q Can you develop a custom formulation?**

Absolutely. Our R&D team develops custom formulas, including taste, texture and stability optimisation.

**Q Are your gummies vegan?**

Yes. Our gummies are pectin-based and gelatin-free. Gelatin options are available on request.

**Q What is an oral thin film?**

A thin, stamp-sized strip that dissolves on the tongue in seconds, delivering nutrients without water or swallowing.

**Q How long from sample to production?**

Sample development usually takes X–X weeks. Production depends on order size and packaging, typically X–X weeks.

**Q Do you export?**

Yes. We supply clients internationally and provide the required export documentation.

**Q Which certifications do you hold?**

We are GMP, FSSAI and GLP certified.

**Q What is the shelf life of your products?**

Most products have a shelf life of 12–24 months, confirmed through stability studies.
